STONY PLAIN, ALBERTA, THURSDAY, FEB. 23, 1933

Whole No. 649

Inga Ratepayers Meet.

Inga ratepayers held their annual meeting in Stony Plain town hall on Saturday afternoon, February 18th. The meeting was called to order by the official administrator, Mr J Renshaw. On motion, Mr T Wudel was voted to the chair, and presided.

The opening proceedings for some considerable time was taken up with protests being made against the alleged discrimination in recommendations to grant old age pensions. One resident of the Municipality stated that his mother, who was seventy years of age and eligible under the Act for a pension, had been awarded the sum of only \$5 a month, while other elderly ladies similarly situated were getting their \$20 a month.

Mr Renshaw explained that the Pension Act was a Federal act, and that the provinces and municipalities were only contributors. Mr Renshaw also stated that instructions had recently been given Secretary Dodge that, when these applications came before him, to keep the amount of the pension award as low as possible.

Several of the ratepayers took part in the discussion of this matter.

The removal of the Secretary's office from Stony Plain to Dunfield was advocated by several ratepayers from the west end of the District, who claimed it would be more convenient to the majority.

Following this, some discussion took place on some minor matters.

Mr R C Howat, who acted as delegate from Inga M.D. to the recent convention in Calgary of representatives from Alberta Municipalities, gave his report, which was adopted.

When the time for receiving nominations for Councillors arrived, the following names of those eligible were handed in:

Candidates and Polling Places.

DIV. 1—M McKinly, John Evjen

Vote at Warden School—T Graden D.R.O

DIV. 2—Amil Krause, Adam Schnell, Charles Clark, and H H Summerfield

Vote at Lucknow School—S Sharpe D.R.O.

DIV. 3—C W Ibsen, A Schinke, Geo Akin

Vote at Rose Valley School—J A Heap D.R.O

DIV. 4—A E Hopkins, D H Lent

Vote at Smithfield School—J Best D.R.O

DIV. 5—R C Howat, Gilbert Stebbings, A Tyrkalo

Vote at Carvel School—J Prussia D.R.O

DIV. 6—Peter Kulak, J P Fuhr, John Staub

Vote at Fred Litzenger's house—A Dairmont D.R.O

Onway Municipal Hospital—A F Schorley, acclamation.

In Divs. 1, 4, 6 the Councillors' terms will be for 2 years.

In Divs. 2, 3, 5 the terms will be 1 year.

New School Trustee.

Aspirants for the office of school trustee were very few when nominations for one trustee were called last week. So few that, when nominations were declared closed, but one name had been given the returning officer—that of Mr O G Wudel, and he was declared elected unanimously to the local school board.

The new board for Consolidated school district No. 52 now consists of Mr John Stahl, the representative from the Lindley unit, with one year to go; and two representatives from Stony Plain S.D. No. 1639—Mrs R E. Wood, with a 2 year term, and Mr Wudel, who will finish out Dr Walton's term.

An agitation has been begun to have the meetings of the Consolidated school board trustees held in some public place, and the town hall has been mentioned as being suitable for this purpose. It is expected this matter will be brought up at next meeting.

"Problems of the Day."

Donald MacLeod, M.L.A., Dr Alexander, of the University of Alberta,

Mr Elmer Roper, editor of Alberta Labor News.

The first-named gentleman will give an up-to-date outline of the doings at the present session of the Legislative Assembly.

Mr Roper will speak on the leading topics of the day; while the address to be given by Dr Alexander should also prove both interesting and instructive.

The gentlemen named are to appear at a meeting billed for Holborn Hall Saturday Evg. March 4, under the auspices of the United Farmers.

This meeting should be attended by all who wish to learn more about the problems of today.

Glee Club Dance.

Owing to the inability of the Glee Club's manager to secure his dance orchestra on the date printed for it in last week's Sun, the date of this dance has been changed from Friday the 24th to the next night, Saturday Feb. 25. Dancing will commence sharp at 8:30, and the music will be provided by that well-known Edmonton orchestra, Lou Chapin's Arcadians. The admission price has been set at a low figure, with ladies admitted free.

Obituary

The funeral took place on Wednesday, Feb. 15th, of the infant daughter of Mr and Mrs Anthony Tyrkalo, Blueberry district.

Funeral services were held at the Carvel Greek Catholic church, and interment was made in the cemetery on the Carvel road.

Mr John Armbruster had charge of the funeral arrangements.

"GARDEN" TEA

"Fresh from the Gardens"

The World Wheat Situation

The time is rapidly approaching when the farmers of Western Canada will once again be busily engaged in seeding their land. As they do so their thoughts naturally will speed forward and they will ponder on the possibilities of the harvest that will result from their seeding. But this year, probably to a greater extent than ever before, their thoughts will not dwell so much upon such aspects of the harvest as the number of bushels to the acre that may be threshed, or the grade that will be obtained,—important as these always are,—but, rather, upon the fact that it may be possible for them to secure, that is, whether in the long run, they will reap a profit above the costs of production for their season's hard work.

In volume of production, the wheat growers of Western Canada had a good crop last year, nor was there much to complain about in the average grade secured. True, some sections of this vast prairie country again suffered from drought, but the area so affected was much smaller than in the preceding year. Nevertheless, disaster befell our wheat growers because the price obtainable for wheat reached the lowest point in hundreds of years,—far away below the cost to the farmer of producing the wheat. And as seeding time approaches, there has been practically no betterment in prices. The prevailing price is still less than it will cost the farmer to produce the wheat.

Like the weather, and so many other factors, the price of wheat is something beyond the power of the farmer to control. He is forced to accept the prevailing world price. Even the so-called six cents a bushel preference in the British market means little or nothing to him because he still must sell at that market at the prevailing world price. The so-called preference will not add a fraction of a cent to that price.

Under these circumstances, farmers,—and everybody else,—are interested in the world wheat situation, because it is that situation which will be the price-fixing and controlling factor. We propose, therefore, to present for the information of readers of this column, certain facts and figures compiled by Donald M. Marvin, Economist, for the Royal Bank of Canada, which were made public on February 1.

First: World shipments of wheat since August 1, 1932, were the smallest in ten years. Shipments to the Orient were relatively large, but other countries took only moderate amounts, and shipments to Europe were very light, as the result of the record crops harvested in many European countries last year. Notwithstanding this situation, Canada exported a large volume, supplying more than one-half of all the wheat shipped from all wheat exporting countries.

Second: The reason why Europe took only moderate quantities of wheat during the last half of 1932 is accounted for by the fact that bumper crops were harvested there in 1932, and new high records in wheat production were established in Germany, Italy, Spain, Portugal, Greece, Holland, Scandinavia and Czechoslovakia, while France produced 65,000,000 bushels more than in 1931. As a result Western Europe produced 180,000,000 bushels more than in the previous year. In order to dispose of these supplies, tariffs, quotas, and other restrictions on wheat imports were substantially increased. On the other hand, Russia and the Danubian countries had smaller crops and practically no wheat to export.

Third: In 1932, owing to unfavorable conditions, wheat production in the United States dropped 175,000,000 bushels compared with 1931, and was 150,000,000 bushels below the five-year average. But while the U.S. thus raised only about sufficient for its own use, it still had a large carry-over from previous years. The Australian crop showed an increase of about 10,000,000 bushels, and Argentine an increase of practically the same amount.

Fourth: Canada's big crop last year, added to its carry-over from previous years, gave us total wheat supplies for the period August 1, 1932, to July 31, 1933, of some 566 million bushels. Of this, 125 million bushels are required for domestic purposes, leaving 441 million bushels for export. Of this latter amount, 140 million bushels have already been shipped, thus leaving about 300 million bushels to ship before the end of July; or to be carried over. Broomhall, the British expert, estimates that another 180 million bushels will be exported by Canada, leaving a carry-over on August 1st next of around 120 million bushels, or from 15 to 20 million bushels less than a year ago.

Now, let us present and future prospects. The condition of the winter wheat crop in the United States was, on December 1st last, officially reported as the lowest since 1893. Australia is selling much of her wheat in the Orient. Wheat importing countries will, however, require about \$2 million bushels less in 1933-34 than was the case in 1931-32. European imports have been restricted in the first half of the present crop year in order to expedite the disposal of the domestic supplies created by the bumper crops previously referred to. It is to be expected that Europe's demands will be much heavier between now and July 31 next.

On the other hand, the total surplus of wheat available for export is more than ample to meet all requirements. Supplies in the Southern Hemisphere are about the same as last year. Heavy stocks are still held in Canada and the U.S. Russia and the Danubian countries are, however, not in a position to export in the same volume as in previous years. Winter wheat crops have suffered in Europe as well as in the U.S. although it is too early to estimate the ultimate outcome.

More than 15,000,000 tons of products were shipped from Argentina in the first 10 months of 1932.

Oil has been found in Austria; the geographical formation resembling that in Texas.

Pains Around Her Heart

Tired Out After Doing Housework

Mrs. Henry Back, Mariel Lake, Alta., writes:—"Last fall I had had pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co. Ltd., Winnipeg, Canada.

Forecasts Revival Of The Timber Industry

B.C. Forester Believes Last Year Marked Low Ebb

"Blocks of logs in the water and lumber stocks in mill yards are now smaller than they have been at any time during the last three years, and any improvement in business conditions will mean immediate activity in logging and milling to fill orders," said a statement on the timber industry of this district by A. E. Parkrow, district forester, at the annual meeting of the Prince Rupert chamber of commerce.

"Yard stocks of poles which were large at the beginning of 1930 have been drawn on gradually for two years with little or no replenishment. Telephone, telegraph and power lines depreciate at the same rate, when business is good or not, and the time is near when extensive repairs and replacements will be necessary if the lines are to be maintained. Similarly the railways, which had large stocks of these on hand at the end of 1929, have purchased very few since that time, and must soon order large replacements to maintain their lines.

"From every angle there is reason to anticipate that 1932 marked the low ebb of the timber industry in this district and that 1933 should show at least a partial return to normal activity."

Indoor Gardening

Interest These Days Is Centering On The Seed Catalogues

The season for indoor gardening is here! From now until the time when Spring actually arrives, countless Canadians will spend hour after hour pouring over the brilliantly illustrated pages of the seed catalogues, hoping for an early start and tasting, mentally, of the delights which come to jaded appetites with the appearance of the first fresh vegetables of the year.

Then, there is the fun of planning the flower plot, an important first step and one which is best undertaken at this season of the year well in advance of the time when home gardeners can actually take to the yard with shovel, hoe, rake and trowel. Flower gardeners well planned ahead of the planting season, usually present the most beautiful arrangement of colors, more orderly arrangement as to height of the various plants and an assortment of varieties which bloom in succession so that the garden is never without flowers.

The annual catalogue of A. E. McKenzie Company, Ltd., whose headquarters are in Regina, has just been mailed to customers throughout the prairie provinces. It contains all of the standard and reliable varieties which have been grown in Canada successfully in past seasons and, in addition, includes a large number of new varieties which, according to tests, are thoroughly adaptable to the Canadian soil and climate and will add further variety to the garden.

Included is a Sand Cherry, a juicy, blue fruit, used for pies, jams and preserves. The small tree, or bush, on which it grows is hardy and has been especially bred for adaptability to Canadian conditions.

This is the second year McKenzie catalogue has listed commercial offering of Crested Wheat Grass, which is expected to solve, in large measure, the feed problem of western Canada, because of its hardiness and its resistance to drought.

To inspire interest in the World's Grain Exhibition and Conference, which is scheduled for Regina, July 24 to August 5, the Company announces in its catalogue two Contests in which \$5,215 in cash prizes will be awarded for letters relating to the Exhibition, for predictions of total attendance, and so on.

Devise Artificial Heart

Remarkable Results Have Been Reported By Moscow Doctors

It is reported from Moscow that two doctors of the Institute for Blood Transfusion, have devised an "artificial heart" with its very remarkable results. The real heart being put out of action for four and a half minutes. The success was such, it is reported, that it is now possible to hope that similar operations on the human heart for diseases now considered incurable may become possible.

The electric motors of modern batteries have the energy of a million men.

Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

TRADE-MARK REG. IN CANADA

Literary Tribute To Lady Nicotine

Poets and Prose Writers Express Mankind's Debt To Good Tobacco

Since the day when Sir John Hawkins, Ralph Lane, Governor of Virginia; Sir Francis Drake and Sir Walter Raleigh introduced and popularized smoking tobacco in England, tobacco has formed the inspiration of literary men and artists.

King James I., is said to have voiced early objection to smoking, refusing to permit his mouth to be "used as a chimney," but despite his royal prejudices, smoking became popular in England and, indeed, throughout Europe. Poets, prose writers and philosophers from the sixteenth century on have extolled its beneficence and acknowledged the comforting solace of the "blessed weed."

In modern days among those who found a congenial theme in tobacco have been Sir James Barrie, the novelist and playwright, whose tender whimsicalities have made him a beloved figure in English letters wherever English is spoken and read. "My Lady Nicotine" will remain a classic of its kind.

Rudyard Kipling, the Poet of Empire, creator of "Tommy" and "Soldiers Three," devoted several famous verses to the cigar:

"Open the old cigar box,
"Give me a Cuba stout,
"For ways are running crossways,
"And Maggie and I are out.
"A million surplus Maggies
"Are willing to bear the yoke;
"And a woman is only a woman,
"But a good cigar is a smoke."

One of the most enthusiastic of modern eulogues on cigars comes from the mouth of a character in Thomas Mann's novel, "The Magic Mountain."

"With a good cigar in his mouth a man is perfectly safe, nothing can touch him—literally. It's just like lying on the beach. When you lie on the beach, you lie on the beach, don't you. You don't require anything else in the line of work or amusement, either."

Egypt's One Paper Mill

Located In Alexandria Produces Cardboard For Cigarette Boxes

There is but a single paper mill in Egypt; the one located in Alexandria produces a cardboard for making cigarette boxes, for which there is a substantial demand in that country. It uses wastepaper and rags obtained locally. Only forty-six tons of pulp for paper making were imported in 1931. There is a project on foot for the construction of a paper mill primarily intended to use raw local materials in the shape of certain kinds of vegetation, but for the production of the better grades of paper and newsprint it would appear necessary to use imported woodpulp.

Industrialization continues to lead in importance in South China.

Puzzle For Pawnbroker

Wedding Dress Pawned Forty Years Ago Awails Owner

What is to become of a wedding dress which has been in pawn 40 years, during which period the interest was paid regularly, is being discussed by pawnbrokers of London.

Suddenly the payments have ceased, and pawnbrokers have been unable to trace the owner. The shop where it first was pledged quit business many years ago, but the dress was transferred to another establishment and the interest payments continued. It is now held by Robertson's Ltd. The woman who pawned it never returned to see it. The dress, once bright and fashionable with its trailing skirt of black, its green bodice stiffened with whalebone, and its green leg-of-mutton sleeves, has grown old and faded, and now is unwanted.

NERVOUS WOMEN

Take Lydia E. Pinkham's Vegetable Compound

"I am so nervous it seems as though I should go . . . I wish my nerves were all on edge . . . I have heard so many expressions from some women that I have become so tired and run-down that I have become so nervous that I cannot allow myself to do anything but sit at home and read. I have heard so many expressions from some women that I have become so tired and run-down that I have become so nervous that I cannot allow myself to do anything but sit at home and read. I have heard so many expressions from some women that I have become so tired and run-down that I have become so nervous that I cannot allow myself to do anything but sit at home and read."

No Use For It

Lady of the House: "Why don't you go to work? Don't you know that a rolling stone gathers no moss?"

Tramp: "Madam, not to evade your question at all, but merely to obtain information, may I ask of what practical utility is moss to a man in my condition?"

W. N. U. 1932

Population Of World Shows A Steady Increase According To The League Of Nations

The Statistical Department of the League of Nations has been counting noses, and gives the figure of the world's population, as at the end of 1931, at about two billion twelve million eight hundred thousand.

More than half of these people live in Asia. In fact, it is the most populous continent, having an excess of some 252 million inhabitants over all the other continents combined. Asia also has the most rapid increase in population in comparison with other parts of the world.

Europe, for the first time in history, has more than half a billion people. On the first of January, 1932, the figure representing its population was greater than 506 millions. The figure for the same date, 1931, was 498 millions.

The North and South American continents were inhabited by some 252 millions of persons at the end of 1931—an increase of four millions over the year previous.

The vast continent of Africa counts scarcely 142 millions of inhabitants. And interesting to note, this figure, for 1931, is two millions less than in 1930. This is the only decrease recorded by any of the continents.

Australia, the remaining continent, supported but ten millions of people at the end of 1931.

Some of the statistics given for the major countries of Europe are interesting: Russia, 127 millions in 1931 against 124 millions in 1930; Germany, 64 millions, with no great advance in growth; Great Britain, 40 millions, no increase; France, 42 millions, an increase of 640,000 over 1930; Italy, 41 millions, a decrease of 400,000; Poland, 35 millions, an increase of a million; Spain, 24 millions, an increase of a million.

The world's population is increasing. That fact is one that has ramifying implications, and if the growth continues at the present rate, within less than half a century it will be one of the most pressing problems that will have to be dealt with.

Fertilizing Pasture Lands

Best Results Obtained When Continuous Grazing Is Practiced

Pasture land fertilized at the rate of 475 pounds per acre of a complete fertilizer was able to carry 2.15 cows to the acre when continuous grazing was practiced. The same kind of land similarly fertilized but grazed rotationally was able to carry only 1.7 cows to the acre, and the same kind of land unfertilized and continuously grazed carried 1.40 cows to the acre. These results were obtained by the Dominion Department of Agriculture at the Experimental Farm, Nappan, N.S. In practice the number of cows varied from week to week according to the condition of growth; and by careful calculation dependable results were obtained. In addition to the pasture the cows received a grain ration at a rate consistent with the amount of milk given. The field used in this experiment had been in use as pasture for most of the twenty-five years it had been in use.

The results of this experiment go to show a saving of 1.1 pounds of meat per cow per day on the fertilized rotationally grazed area and 1.96 pounds on the fertilized continuously grazed area, as compared with the unfertilized area.

Greatest and Smallest Length

The greatest length actually measured is that from the earth to the most distant known nebula, or about 140,000,000 light years. The smallest known length is the estimated diameter of the nucleus of a hydrogen atom, set down as a little more than one-million-billionth of an inch.

Canada's two largest lakes, wholly within Canadian territory are Great Bear Lake and Great Slave Lake, of which the first is the larger.

Glasgow, Scotland, plans to provide recreational and educational facilities for its unemployed.

W. N. U. 1582

Losing Their Manners

Conversation In Some Homes Impossible Since Radio Arrived

Has the radio developed a people with declining manners? It used to be considered the height of ill breeding, in the good old days, for anyone in the room to interrupt a conversation between guest and host, but those days are gone forever in radio homes, where it is very common for some one thoughtlessly or by design, to turn on the radio, and get a leather-hunged announcer bellowing ballyhoo, or a singer screaming the latest jazz song to the utter disruption of conversation on any subject. And it would be insulting the whole family if one made an observation on this utter lack of good manners.

By Ruth Rogers

A YOUTHFUL MODEL THAT'S ADORABLY "SMART" AND WEARABLE TOO

Very simple is this smart day dress. Yet it is exceedingly well balanced and slimming, which makes it suited to the average full figure as well as youth.

And it is such a delightful little dress to slip into for general day occasions.

Dark blue crinkly wool crepe made the original. The collar is white rough crepe silk. The bone buttons and leather belt are coral-red.

Printed or plain crinkly crepe silk and angora woolen weaves are splendid mediums for this model.

It can also be made with long sleeves.

Style No. 515 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Size 16 requires 3½ yards 39-inch, with ¼ yard 39-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

How To Order Patterns

Address: Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg

Pattern No. Size

Name

Town

Size Of Ranch Flocks

Income Received Is Affected By Number Of Breeding Ewes

The number of breeding ewes per ranch is an outstanding factor affecting the income received by range sheepmen in Alberta and Saskatchewan, according to an economic survey of the range sheep industry conducted during the past three years by the Agricultural Economics Branch and Experimental Farms Branch of the Federal Department of Agriculture. In analysing the relation of size of business to income the records of 87 ranches were grouped according to the number of breeding ewes per ranch; 11 ranches had under 500 breeding ewes; 25 between 500 and 1,000; 1,000 and 1,499; 17 between 1,500 and 1,999; 5 between 2,000 and 2,499; 4 between 2,500 and 2,999; and 7 ranches had over 3,000 breeding ewes. Ranchers who had less than 500 breeding ewes obtained an average ranch income of \$441, whereas those who had between 1,500 and 2,000 breeding ewes secured \$2,022. The income per ranch was thus found to increase with the number of ewes. The number of breeding ewes thus found the size group 2,000 to 2,499 was reached and from this point declined, indicating that these sheep ranchers who had between 1,500 and 2,000 breeding ewes had about the right balance between the number of ewes, amount of range, labor and equipment per ranch.

Spinach and Carrots

New York Surgeon Tells Women

How To Become Beautiful

Any woman can be beautiful, according to Dr. J. Howard Crum, plastic surgeon of New York—but she must be willing to eat spinach.

"What you eat is the answer to how fast you age," Dr. Crum told delegates to the trade display and fashion show which contained here today. He then promised a beautiful complexion to any woman who would each day eat a generous portion of a thin-leaved vegetable follow it with a good dose of spinach or carrots and top them off with a quart of milk.

"Worry and fear are to be avoided at all times," the surgeon advised. "Nothing detracts so much from your looks." Most stage and screen beauties, he said, have "acquired their attractiveness."

The Largest Organ

The latest organ in the world is a cathedral in Liverpool, England. The instrument has five rows of keys, 222 draw knobs, 168 stops and 10,934 pipes. It is played by electro-pneumatic action, the mechanism being driven by motors with a total of 35 horsepower.

Cost Of Operating And Maintaining Port Of Churchill Will Always Be Very Moderate

No Latchkey Needed

Always a Door-Man At Number Ten Downing Street

However late the hour, Premier Ramsay MacDonald and members of his family never have to worry about being locked out of their London home.

For No. 10 Downing St., home of England's premiers and the most famous house in London, is claimed to be the only private residence in the capital to which no one needs a latchkey.

Thanks to David Lloyd George, war-time premier, "10 Downing" has a door attendant night and day, and there is always a doorman on duty, however small the hour.

When Lloyd George came into power and took up residence at Downing St., there was a little wooden knob, hardly perceptible, on the door near the knocker, and by pulling the knob a string inside attached to it raised the latch, and the caller entered.

This simple village method did not appeal to Lloyd George, especially in war-time, and instructions were given for the door to be manned night and day.

Up to the first year of the war it would have been possible for any stranger to have pulled the latch and entered the premier's residence, but nowadays every visitor is carefully scrutinized and asked his business before being permitted to enter even one of the ante-rooms.

Life Of Weed Seeds

Experiment Proves Some Germinate Strongly After Forty Years

An experiment to test the viability of weed seeds has been reported by the Dominion Department of Agriculture. Seeds of many kinds of weeds were mixed with sand and placed in uncorrupted pint bottles and buried twenty inches below the surface. The bottles were slanted with the mouth downward to prevent the accumulation of water in the bottles.

The experiment has been carried on by the Michigan Agricultural College, and it has been found that after forty years buried in this way seeds of Black Medick, Peppergrass, Pigweed, Ragweed, Wild Primrose, Common Plantain, Purslane, and Curled Dock germinated vigorously.

These remarkable results led the Dominion Agrostologist to ask the question: "Who knows how long weed seeds will last?"

Owing to natural breakwaters the cost of operating and maintaining the port of Churchill will always be moderate whether the traffic be heavy or light. D. W. McLachlan, engineer-in-charge of the Hudson Bay terminals, told the Engineering Institute of Canada at the concluding session of its annual meeting at Ottawa.

Natural breakwaters or jetties at the entrance to Churchill harbor, he explained, direct the tidal currents so that they perform a perpetual service by their scouring action in keeping the harbor from filling up. There are no wide tidal flats or currents to deal with.

The expenditure to date chargeable to the Churchill development amounts to about \$13,372,896, stated Mr. McLachlan.

With work still to be done the cost on completion will be about \$13,800,000. The net cost, according to Mr. McLachlan, would scale down to \$12,500,000 if the dredging plant can be sold for half its original cost and if allowance is made for an amount of \$625,000 incurred through taking the harbor from formerly charged to the works at Port Nelson.

The further work required to complete the initial developments at Churchill, Mr. McLachlan said, consists of one season's dredging with one dredge; an additional season's work on completion with covering the water supply pipe; a small amount of work connected with water supply intake; extension of elevator tracks; and some further sheathing of the face of the deep water dock.

The water supply of Churchill was one of the unique features of the development. Provision of water for locomotives, ships and camp in general was a difficult matter as there were no creeks of any size. The plan adopted was to excavate a reservoir at Grassy Slough, three and a half miles from the docks, having a capacity of 17,000,000 gallons. A pumping station and tank were provided and a 10-inch pipe line carries the water across the country to another tank within the townsite of Churchill.

Toy Bank Sales Increase

Those That Refuse To Open Were Among Best Sellers

The depression has brought millions of coins out of the sock and into the Tom Thumb savings bank. More than four and a half million toy coin depositories were sold in the United States in 1932, a 70 per cent. increase over 1929, according to a survey of the American toy industry.

Banks that refuse to release deposits until five or ten dollars accumulate lend in popularity last year. The vogue for saving inspired many new designs, including banks that register five different kinds of coins and hold as much as \$75. Fancy chromium plated banks gave a fashion note to thrift.

Banks with combinations like safes and banks that combined cash register attachments were favored by children for playing store. But the adult resolution to save is credited with the popularity of banks that refuse to open.

The manufacturers of toy banks estimate that nine out of ten are broken into after two years. So the industry counts on a large replacement business in spite of lifetime guarantees against all mishaps except forcible entry.

White Bread Forbidden

White bread will be forbidden, until next harvest, to soldiers, policemen and boarders in schools and colleges in Rumania. Instead, they will receive rye bread and a kind of stiff porridge made of maize.

"You only married me because my aunt left me some money."

Nothing of the kind, I'd have married you regardless of who had left it to you."

WORLD HAPPENINGS BRIEFLY TOLD

No consideration has been given to the matter of establishment of a national wheat marketing board, Prime Minister R. B. Bennett stated in the House of Commons.

Conditions on United Kingdom apple markets are on the whole dull and sales discouraging, according to information received by the Dominion Department of Agriculture.

Canada will have no official Scout jamboree at Godollo, Hungary, in August; it has been decided by Dominion Scout Headquarters.

Planning to establish a beet sugar refining plant, A. D. Blaauw, Amsterdam, Holland, who is associated with one of the world's largest such factories, has arrived in Winnipeg.

The Japanese imperial parliament, approved by a standing vote, the largest budget in the history of the nation, totalling 2,239,000,000 yen (about \$480,000,000).

The report of unclaimed bank balances tabled in the House of Commons by Hon. E. N. Rhodes, Minister of Finance, reveals that there is \$1,860,196.75 of unclaimed money in the banks throughout Canada.

According to a special London cable to the New York Times, the admiralty has announced its first contract for fuel oil extracted from British coal had been placed with a British firm.

Use of intravenous injections of the colloidal solution of metallic arsenic have proved successful in the treatment of bone sarcoma, one of the most terrible types of cancer, according to the Canadian Medical Association Journal.

A favorable report on the treaty with Canada for construction of the gigantic St. Lawrence waterway and power project has been voted by a United States Senate foreign relations sub-committee.

Improvement in Indian Home Life

Western Indians Fast Adopting Modern Methods of Living

The erection of comfortable and more commodious dwellings during the last few years has been a feature in the growth of civilizing influences among the Indians of the Prairie Provinces of Canada according to the Department of Indian Affairs.

These new homes provide many conveniences and the light and ventilation that was lacking in the old—a healthier environment for the children.

The new condition has encouraged the owners to appreciate the value of additional pursuits to augment their sources of livelihood such as the cultivation of gardens, the raising of chickens and in some instances pigs, and turning their attention to milking and even to the art of butter making.

Used New Technique For Delicate Operation

Discovery Made Removal Of Tumor From Brain Possible

Operation on the brain for the removal of a tumor, performed recently in London Hospital, has been pronounced a success, and the patient is recovering and his sight has been restored. It is considered one of the most delicate surgical feats ever performed. Discovery of a new technique made it possible.

The patient, a school teacher, was going blind as a result of the tumor, which was in an almost inaccessible spot, and eventually would have spread to other parts of the brain. Five doctors, headed by Dr. H. W. L. Cairns, of the London Hospital, spent all day in the operation. By means of diathermic current the tissues of the brain were completely broken through to get to the tumor. By the new technique the current gradually went through the cells, breaking them, but healing them again as it passed on its way to the base of the trouble.

Books Children Like

Tastes Indicated In Survey Conducted By London Teachers

What books are most popular among children? Teachers employed by an educational authority in Greater London invited 1,000 boys and a similar number of girls to indicate their tastes. The result, published in the Teachers' World, was:

Boys, per cent, story books, 26; science books, 13; poetry books, 4; plays, 8; "how to make," 20; amusing books, 23; informative books, 8; girls, per cent, story books, 28; science books, 2; poetry books, 11; plays, 20; "how to make," 12; amusing books, 24; informative books, 8.

The boys owned between them 11,155 books—an average of 11 each. The girls owned 14,171—an average of 14 books each.

JESUS SHOWS HIS POWER

Golden Text: "For I know Him whom I have believed, and I am persuaded that He is able to guard that which I have committed unto Him against that day." Timothy 1:12b.

Lesson: Mark 4:35-5:20.

Devotional Reading: Isaiah 12:1-6.

Explanations and Comments

A Great Storm and a Great Calm, 4:35-41.—All day long Jesus had been preaching, and there had been no time for rest. When night came He said to His disciples, "Let us go over unto the other side," the other side of the lake where there were no habitation. They obeyed, taking Him with them in a boat "even as He was." What an insight into the humanness of Jesus that little phrase—"even as He was." Jesus had been in his physical strength, and he was utterly spent. Overcome with fatigue, He sank back in the stern and fell into a sleep so deep that when the wind began to rise and the waves to roar, when the boat began to fill and the disciples cried out in their excitement, He still slept on.

"What strikes us here is that He had learned to relax," to use the language of today. No sooner was his work done, then He composed himself to sleep, and as comfortable as possible he used the cushion as His pillow. Some people break down because they have never learned to relax. Their work done, they cannot rest. Their minds are still busy. If we are to work to the full, we must learn to drop the yoke swiftly and to rest with both mind and body. Jesus is an example in this also." —R. C. Gillie.

Suddenly there arose a great wind storm, and the waves came into the boat so that it began to fill. There have always been sudden and violent storms on the Sea of Galilee.

Experienced sailors though they were, the disciples were frantic with fear. They had been battling with the elements and losing, and they shouted to Jesus, "Teacher, carest thou not that we perish?" He arose and rebuked the wind, and said unto the sea, "Peace, be still." The Greek word translated be "still" means literally be "muzzled." He spoke to the sea as though to a raging animal. And the wind ceased, and there was a great calm.

CORRESPONDENCE.

STAMP OUT THE DEPRESSION

The Editor:—May I have a little of your valuable space to put forward a plan which I developed about three months ago—a plan which if put into operation, would, I feel sure, get business in western Canada out of the present depression and on to its feet again.

I would say at the outset that I am one who believes that our present economic system is antiquated and therefore, most lines of business are being replaced or are being replaced by this with one more in keeping with the needs of modern society. What I am suggesting is put forward only as a prop to shore up our present business structure and save us from a total collapse until we have time to examine and repair the foundations of our present system of doing business.

There is no need to describe the present situation in western Canada, though we are frequently told that we are much better off than other places. Yet the fact remains that because farm produce prices are so low the farmer has no purchasing power, and therefore, most lines of business are being replaced or are being replaced by this with one more in keeping with the needs of modern society. What I am suggesting is put forward only as a prop to shore up our present business structure and save us from a total collapse until we have time to examine and repair the foundations of our present system of doing business.

At it is generally admitted that nature did not throw us down. We have abundance of everything we need, but we lack the medium needed to exchange our commodities with one another. If we can agree that the present situation is such that we are better off than other places. Yet the fact remains that because farm produce prices are so low the farmer has no purchasing power, and therefore, most lines of business are being replaced or are being replaced by this with one more in keeping with the needs of modern society. What I am suggesting is put forward only as a prop to shore up our present business structure and save us from a total collapse until we have time to examine and repair the foundations of our present system of doing business.

My plan, if put into operation, would give the farmer, instead of talking about rebellion, strikes, or not allowing a crop, would be adopting a course which would be constructive and effective, and which, given the co-operation of business men, would give the necessary impetus to business and thus bring benefits to the entire community. My plan provides for an equal distribution of effort in the proportion to business transacted: it would give the farmer 80 per cent. more purchasing power, and would give the farmer, and at the same time would help the business man by giving him a much larger volume of business.

My plan is as follows: Let there be set up a Collective Produce Clearing Association, with representative business men from the three prairie provinces on a board of five trustees. This clearing house would be properly bonded and would have a property bonded agent in each country town. It would issue clearing house certificates for clearing house stamps. The face value of the certificate would be for double the net market price of any produce delivered by the farmer desiring to use the clearing house.

It would function like this: A farmer takes a load of wheat to an elevator and receives an ordinary cash ticket for the net value of, we will say, five dollars. He takes this five dollars and goes to the local agent of the clearing house and receives in exchange a clearing house certificate for ten dollars. He is double the amount of this cash ticket. The clearing house certificate would read "The Collective Produce Clearing Association will pay ten dollars in cash on presentation of this certificate with fourteen forty-cent clearing house stamps attached on the reverse side hereof."

This certificate would have a face value of ten dollars and would be redeemable in cash after it had turned over fourteen times. It had collected fourteen times. The clearing house would have the five dollars cash from the wheat and \$5.00 in cash from sale of stamps. The farmer would take the first 4% discount by signing his name and address on the back and attaching the first stamp. Everybody using the certificate would do the same until it had done \$140 worth of business.

On other words, the business man who has a clearing house certificate would have each taken a 4% discount in order that the primary producer may have an extra 96 per cent. more buying power, and at the same time they will have put in circulation an auxiliary currency which would be gradually converted into cash.

I have submitted this plan to a considerable number of business men and while most of them, of course, do not like departing from the time honored methods of doing business, many of them see their business gradually departing from them and are coming to the place where they would be willing to try anything which looks like a way out.

Many of them agree that if 80% of the farmers were to accept these certificates for the grain and livestock marketed, business would have to adapt itself to the use of them. Most of these same business men also agree that if they could get almost twice as much business and twice as many debts paid as at present they could well afford a discount of 4 per cent. But in actual practice they would not likely need to stand a 4

VICKS VAPORUB

per cent discount on all their business because there would still be a very large amount of cash circulating. The amount of certificates circulating would only be a fraction of the cash, because they would be continually converted into cash and they would automatically pay a large volume of cash out into the channels of trade. Some object that it would be too cumbersome, but all admit that the present situation is certainly very cumbersome. Throughout the country, stores are literally bending with all kinds of merchandise which is not moving, farmers are unable to pay taxes, interest or debts.

Some think business would refuse to accept these certificates but stamp and scrip money have been in use in two cities in Germany during the last six years and in 140 places in the United States and Canada recently. In some of these cases there has been no reason at all at the present time, whereas one Winnipeg business man pointed out that in my plan there would always be fifty per cent. of actual cash value in the certificates at the back of the certificates.

My plan also embodies the principle of retaining currency to commodities, which is one principle on which many of the world's economists are agreed. I submitted my plan to Dr. Irving Fisher of Yale, and the reply I received was very encouraging.

If the present conditions are allowed to continue hundreds of farmers will dispose of their livestock such as pigs, sheep, and poultry. Many who are now behind with taxes and interest will, if they put in a crop at all, be left behind next fall; thousands are now so discouraged that they are rapidly becoming a problem to our governments. It is high time that we started to do something about this situation. My plan may sound radical but the situation is so critical that a radical remedy is needed. My plan would be better than debt adjustment, because the way to adjust debts is to pay them. My plan will be unfair and very cumbersome to carry out.

My plan would allow the farm produce to flow to market as usual without interfering with prices which are set on an export basis. It would still allow of feeding the unemployed cheaply, but many of these would be quickly absorbed by the greater volume of business which would result.

I would be very glad to have the opinions of business men and also to answer any criticism or question with regard to my suggestion of how to stamp out the depression.—Colin H. Burnell, Oakville, Man.

Police men may use call boxes which are to be established in Glasgow, Scotland, to order their meals.

ROOSEVELT HAS NARROW ESCAPE FROM ASSAULT

Miami, Fla.—A gunman fired a stream of bullets into the party of President-Elect Franklin Roosevelt, wounding Mayor Anton Cermak of Chicago, and four others, but Mr. Roosevelt was unhurt.

A man giving the name of Joe Zingara of New York, was held as the shooter, Robert H. Gore, Chicago friend of Mr. Roosevelt, quoted the assailant as saying: "I kill all presidents, kill all officers." His shots hit also Mrs. Joe Gill of Miami; William Sinnott of this city; Russell Caldwell, a boy, and Miss Margaret Krews of Newark, N.J.

Mayor Cermak was hit in the chest. The bullet pierced the body and came out his back. Little hope for his life is held. The Chicago mayor was about 20 feet from the automobile of Mr. Roosevelt in Bayfront Park, and was approaching the machine.

Startled and momentarily stunned by the firing close to his car, Roosevelt waved to the crowd and shouted "I am all right," as he was hurriedly driven away, through the confusion, bearing Cermak to a hospital. The shooting and screams of the victims created momentary pandemonium. Quiet was quickly restored, however.

Mrs. W. F. Cross of Miami, struck the shooter's arm as he let go with the fifth shot and showed his show the air. James W. Galloway of this city, and a policeman overpowered the man and shackled him to a car.

Mr. Roosevelt had just concluded speaking from his automobile, standing in Bayfront Park, and had sat down when the shooting opened.

Orderly crowds surrounded the city police station where the would-be assassin was taken.

The jail was just across the street from the railway station where Roosevelt's train had awaited him. Bystanders said the prisoner spoke with a decided foreign accent. Mr. Roosevelt, at the hospital, went to the bed of each of the victims before going to the yacht of Vincent Astor to spend the night.

The shooting turned a day of happiness for Roosevelt into one of tragedy. Only three hours before he had cruised into port here on the yacht, tanned and jovial from his fishing cruise.

While deeply moved by the incident he was untruthful, showed no excitement as his car sped away from the scene.

Gore said he heard the shooter exclaim as he was overpowered: "Well, I got Cermak."

Migration Course Turns

More People Going From Dominions To United Kingdom

London, Eng.—The course of empire migration has turned. For the first time in history, more people are now entering the United Kingdom from the Dominions than are emigrating from the United Kingdom to the Dominions.

Figures submitted in the House of Commons by J. R. Thomas, secretary for the Dominions, show an inward balance for the nine months ending September 30, 1932, of 26,034, made up as follows:

Canada, with Newfoundland, 17,644.

Australia, 3,847.

New Zealand, 1,641.

South Africa, 2,902.

Red Deer Reduces Mill Rate

Improved Collections and Economy Programme Paved Way

Red Deer, Alta.—Civic authorities have kept their promise to Red Deer taxpayers.

Council voted to reduce the tax rate from 44 mills to 41 mills for 1933 requirements, the first reduction ever made in the tax rate in the city's history. An economy programme and improved tax collections paved the way for the reduction, leaving the city in a first rate financial situation.

W. N. U. 1982

Defines Policy As "Ruthless"

Charge Made Against Great Britain Before U.S. Senate Finance Committee

Washington.—A "ruthless policy" by Great Britain to drive down gold dollar prices in an effort to win war debt cancellation or reduction was charged before the United States senate finance committee by Rene Leon, of New York, formerly "technical adviser to the House of Representatives Colmago" committee.

He said that through the British exchange equalization fund for purchasing gold currencies in the open market, Great Britain had "the control of dollar exchange and consequently the control of U.S. prices." "That which Britain would not for one minute countenance from U.S. she practices every minute upon U.S. with disastrous consequences to every phase of our economy," Leon said. "Every man, woman and child in this country is the victim of this ruthless policy."

"Debt cancellation is avowedly Britain's immediate objective, because," Leon continued, "if U.S. can be saddled with the debts, U.S. industry must foot the bill through future taxes."

Disbursements For Relief

Canada Has Already Paid Eleven Millions For Present Fiscal Year

Ottawa, Ont.—The Dominion has so far disbursed about \$11,000,000 on relief for the present fiscal year. Of this amount \$8,000,000 has been for direct relief. The accounts are frequently delayed and the estimate is that the relief for the year ending March 31 next will cost the federal treasury \$25,000,000. The cost for the year before was about \$46,000,000.

The total number receiving relief last month represented a high record of 1,387,462. While the number of unemployed receiving relief was greater in the present fiscal year than in the previous, the cost to the Dominion will be less because most of the money this year is for direct relief instead of assisted public works.

The total number receiving relief is approximately 13 per cent. of the total population.

Japan's Withdrawal From League Is Anticipated

Has Ceased Negotiations With Geneva In Manchurian Dispute

Tokyo, Japan.—Japan has served notice it has ceased negotiations with the League of Nations in the Manchurian dispute, but its anticipated withdrawal from League membership was not expected for about a month.

The Tokyo Stock Exchange was closed and those of Osaka and Nagoya also were shut down, owing to a severe slump in prices, caused by indications of increasing anti-Japanese sentiment at Geneva.

It was learned on high authority that the government feels withdrawal from the league would be the turning point in the empire's history.

Halts Forced Sales

Berlin, Germany.—President Von Hindenburg has signed an emergency decree extending a moratorium on mortgaged estates and farms to the farms to the entire reich to provide a breathing spell until October 31.

"EXPLORATIVE" DELEGATE

It is understood that the British Government proposes to send to the United States this month an expert "explorative" delegation to confer with the United States authorities on War Debt. Sir N. F. Warren Fisher, above, will probably be included in the delegation.

House Discusses Court Immunity For Indians

Suggested Changes To Indian Act Arouse Storm Of Disapproval

Ottawa, Ont.—The House of Commons spent two hours discussing its official wards—the Indians. When Hon. T. G. Murphy, Minister of the Interior, introduced a bill to appoint Royal Canadian Mounted Police constables as Indian truant officers and make other changes to the Indian Act, he aroused a storm of disapproval and opened a wide discussion.

The broad subject of the legal responsibility of Indians was introduced by several members, who claimed it was illogical for a red man to be immune from court action when operating an automobile on the highways.

A. W. Neill, (Ind. Comox-Alberni) asserted he knew of a case in which a white man had been run down by an Indian. Because the Indian was a ward of the government, the injured man could get no redress. Also, as the Indian received no punishment, he would feel at liberty to go out and do the same thing again.

Mr. Murphy said an Indian using the highways was subject to provincial law, and the authorities could refuse him a license if it was found he was causing persons injury.

Opposition to the blanket appointment of officers of the Royal Canadian Mounted Police as truant officers was so strong that that particular clause was allowed to stand over.

Cumbersome Procedure

Says Board Of Directors Could Accomplish More Than Legislators

Ottawa, Ont.—Parliamentary efficiency experts cast a critical eye over the House of Commons and agreed its procedure was cumbersome and expensive but in a three-hour discussion could not agree on a solution.

An ordinary board of directors could accomplish more in three weeks than parliament accomplished in three months exclaimed Peter McGibbon Con. Muskoka), when introducing a resolution to establish a committee to consider overhauling parliamentary customs.

Approves Tribunal Clause

Adoption By Senate's Railway Committee Is Only Tentative

Ottawa, Ont.—The senate railway committee, without a recorded vote, put the stamp of approval on the clause in the new railway legislation setting up an arbitral tribunal to render decisions in the event of disputes that might arise between the Canadian National and Canadian Pacific Companies in future co-operative efforts.

Although this committee had previously gone through practically the whole of the bill and prepared it for a report to the senate, all amendments relating to the proposed arbitral tribunal were only tentatively adopted pending a final decision as to whether or not any such tribunal would be set up.

Only three members of the committee opposed the tribunal. They were Senators James Murdock, John Stanford and F. L. Beigu. Senator Murdock moved an amendment that in place of an arbitral tribunal, set up by the act, the disputing companies could set up conciliation boards. The motion was lost 14 to 3.

Subsequently all the amendments and clauses respecting the operations of the tribunal, tentatively adopted, were confirmed.

Plea For Veregin

Doukhobors Ask Ottawa To Show Leniency To Leader

Brilliant, B.C.—"The Union of Youths of Community Doukhobors" today delivered a three-barbed protest to Canadian authorities against pending deportation of Peter Veregin II, monarch of all Canada's 15,000 Doukhobors, as Veregin waited at Halifax for the next hearing of his case before Mr. Justice Humphrey Mellich.

The Doukhobor youths, all Canadian-born, sent one message to Prime Minister R. B. Bennett that ended: "Be lenient, otherwise our welfare will lie upon your conscience."

Hon. Wesley A. Gordon, Minister of Immigration, was petitioned to stop Veregin's deportation and Mr. Justice Mellich was informed in a third telegram: "The fate of Peter Veregin is linked with the fate of 15,000 people and every harsh treatment given him is reflecting upon us all. If Peter Veregin is deported it will be great injustice."

War Spits Countries

Colombia Has Broken Off Diplomatic Relations With Peru

Bogota, Colombia.—Colombia acted to break off diplomatic relations with Peru as a result of the beginning of open warfare in the long threatening fight for possession of Letitia, upper Amazon gateway to the Atlantic Ocean.

The Colombian foreign office handed passports to the personnel of the Peruvian legation here.

(In diplomatic usage the arbitrary handing of passports to diplomats of a foreign nation means the breaking off of diplomatic relations.)

Lima, Peru.—Peruvian military forces claim to be still holding their positions in the disputed Letitia territory after the first clash with a Colombian flotilla that came 2,000 miles up the Amazon river to reassert control over the area.

REVENUES FROM CUSTOMS SHOW HEAVY DECLINE

Ottawa, Ont.—Customs and excise revenue of Canada shows a decrease of \$14,866,824 for the elapsed 10 months of the present fiscal year as compared with the corresponding period last year. The 10-month period ended with January 31.

Figures issued through the department of national revenue reveal that a net total of \$58,961,628 was collected in customs duties during the 10-month period just ended, a decrease of \$27,261,477, compared to the corresponding period of last year when net customs collections amounted to \$86,223,105.

In the excise tax field collections recorded an increase of \$20,852,640 as compared with the 10-month period of a year ago.

Increased sales tax, etc., produced \$68,330,567 during the 10 months just ended, as compared with \$47,397,920 in the 10 months last year.

Excise duties are down \$5,826,802 to \$33,173,117, as compared with \$41,699,920 in the 10 months ended January 31, 1932.

The amount realized from income tax during the 10 months just ended was \$50,000,774 or \$10,421 less than during the 10 months last year.

Total customs and excise revenue during the 10 months just ended was \$161,274,788.

Canada's Third Best Market

Exports To Holland Totalled \$16,907,507 During 1932

Ottawa, Ont.—Apart from the United Kingdom and the United States, Canada's best market in 1932 was the Netherlands. Exports to Holland totalled \$16,907,507, compared with \$13,572,705 in 1931 and \$10,843,449 in 1930. Agricultural and vegetable products made up the bulk of the exports, the bureau of statistics reports.

Another European country to which there is a growing export is Belgium. It is the next important market to that of Holland. Last year exports to Belgium totalled in value \$14,948,482 compared with \$14,387,271 in 1931 and \$15,376,965 in 1930. Although in 1930 the value was greater than in 1932, the volume last year was much larger, prices being considerably lower than they were then.

A Long Sleep

Chicago Woman Has Slumbered For More Than Year

Chicago.—Three hundred and sixty-five days and nights without a known moment of consciousness, 27-year-old Patricia Maguire has slumbered—a puzzle to physicians.

Just a year ago, a doctor was called by an anxious Oak Park family. They could not arouse Patricia, suffering from sleeping sickness.

All doctors have been able to do has been to keep up her physical strength by forced feedings of nourishing liquids. The procedure will be, it was said, continued nursing and watchful, prayerful waiting.

Indian Trust Fund

Ottawa, Ont.—In five provinces of Canada the Indian trust fund has been greatly augmented since 1920, according to an answer given in the House of Commons today by Hon. T. G. Murphy, Minister of the Interior. The largest increase is in Alberta where the trust fund in 1920 stood at \$1,641,524. It is now \$3,036,009. Saskatchewan decreased from \$1,947,803 to \$1,780,401.

New Air Mail Service

Ottawa, Ont.—Inauguration of a regular air mail service between Big River, Sask., and Ile a la Crosse, Sask., by way of Green Lake and Beaulieu was announced today by the post office department. The service will start operation on or about March 16.

Prices of diamonds are again rising, according to reports received at South African diamond markets.

BRITAIN'S NEW SUBMARINE COMMENCES SEA TRIALS

Here we see the "Sturgeon," latest addition to the British Navy, gliding out of Gillingham Harbor for the commencement of her sea trials. She is the result of some of the best brains in the Service, and is expected to put up a good show for speed and diving reliability.

Stony Plain Sun.

Advertising Rates:
Display, 40 cents per column inch; plate, 25c per column inch. Readers in Lonsdale, 15c line. Legal and Municipal Notices, etc., 15c line first insertion; 10c line each subsequent insertion.

He'd Rather Be a Baker.

A timely expression of sympathy to the Alberta printers is contained in the following extract from the Hanna Herald of a recent date: "The publishers of weekly newspapers in Alberta recently met in convention to consider mutual problems and interchange views on methods to overcome them. Publishers of weekly papers have had a rather hard 'row to hoe' during the past couple of years, and have been duly chastened and subdued as a consequence.

"Nevertheless the publishers are courageously endeavoring to carry on in the best possible manner. Every class in the community renders certain services to the entire group in order to justify its existence. We believe that very few classes quite keep up with the weekly publisher in the volume of services rendered or in self sacrifices entailed. And the weekly paper is always the first to suffer when hard times come.

"This recalls to mind the utterance of a veteran newspaper publisher during a depression many years ago. He said that if he had his life to live over again he would be a baker instead of a newspaperman. The reason he gave for this choice was that 'people have to eat bread.' Possibly some of our wheat-growing readers will doubt this assertion. The idea behind it, however, is quite plain."

Taxation Out of Line.

The interest charges alone of the Canadian government now amount to their total expenditure 20 years ago. In his booklet "Cost of Government in Canada" W. Sanford Evans points out that for 18 years the taxing authorities in Canada—federal, provincial and municipal—have been spending beyond their incomes.

In the last fiscal year Canadian governments spent \$134 for every \$100 they received. The Dominion Government spent \$134 (the average for all), the provinces \$152 for every \$100 received, and the municipalities \$124.

According to Mr. Evans, it would seem that taxation has got out of line with the earning power of the people. In 1904 the governments were spending \$19.08 per capita; in 1930-1 they were spending \$88.68 per capita.

Prosperity Always Returns!

Get prepared for prosperity—it always returns. 1932 was a hard year—but it's now only a memory. 'Tis the future that concerns us now. 1933 is a year in which we should prepare ourselves for the Prosperity which always returns. This is the year in which we are going to see some of the greatest opportunities that have appeared since 1893.

How Price of Groceries Has Dropped.

Seventeen dollars and seventy-five cents for a bag of sugar today and who could buy it—A very interesting comparison of the retail price of groceries is contained in the following compilation taken from one of our exchanges—The comparison in prices dates back to the year 1920, when sugar sold at \$17.75 per sack—"A window display in an Ontario town caused a good deal of comment. It showed a bag of sugar priced at \$17.75, which was the retail price in 1920. Opposite was shown what \$17.75 would buy today—

The same bag of sugar
3 pkgs. shredded wheat
2 pkgs. cornflakes
1 pound of tea
3 pounds of coffee
3 cans of salmon
1 jar of pickles
2 cans of corn
1 package of meal
1 pkg. of cake flour
98 pounds of flour
2 packages of pepper
10 bars of soap
3 cans of cleaner
1 pkg. of macaroni
2 cans of pumpkin
4 bottles of catsup
3 pkgs. corn starch
2 pounds of cheese
2 packages oatmeal
2 cans of spaghetti

Reduce Exam. Fees.

A bulletin issued by the provincial Dept. of Education shows that the examination fees in Alberta will be reduced by \$1 for High school and matriculation exams. Reduction of the sitting time of High school exams. from 3 hours to 2½ hours will make this possible, as less work and expense is entailed in marking the shorter papers.

The Exam. fee for grades 11 and 12 at present is \$7; the next fee being \$5.

The explanation is given that the shorter time will permit students as much time for revision of their papers, the only difference being that there will be more optional questions.

Church Services.

Services in St. Philip's Church next Sunday, 9.30 a.m.
Service at Rosenthal Lutheran church next Sunday, is at 10.45 a.m.

German Lutheran services will be held in Stony Plain next Sunday at 2.30 p.m.

United Church service every Sunday Evg. at 7.30.

Schedule of Mails.

From the East—Sun. Tues. and Thurs. 10.47 p.m.

From the West—Sun. Wed. & Friday, at 8.15 p.m.

Mail to East—Sun. Wed. Friday at 8.15 p.m.

Mail to West—Sun. Tues. and Thurs. at 10.47 p.m.

Reg. dispatched and received with every mail.

Bus Time Table.

Stops at Royal Cafe. To Edmonton, 10.50.

To Onoway and Mayerthorpe—17.25.

To Evansburg and Wildwood—17.25.

ANOTHER CONSIGNMENT OF BRIAR PIPES

JUST RECEIVED AT THE

ROYAL CAFE,
TO BE SOLD AT
25 CENTS.

Seed Wheat.

Alberta Wheat Pool has taken a considerable interest in the Junior Field Crops Competition among the Junior wheat clubs that have been organized in Alberta by the Provincial Dept. of Agriculture in conjunction with the Federal Department. The development of these clubs has certainly done a great deal toward the production of better quality grain.

A number of the Junior growers have a quantity of seed wheat for sale, and it is suggested that any who are in need of seed should get in touch with these boys. No doubt but that once the grower and the prospective purchaser are brought together a satisfactory price can be negotiated.

Among the names of those listed is that of Geo. Shaul, phone 1613, Stony Plain.

CHILD PROTECTION.

For \$1.00 per year the General Accident Assurance Company of Canada will insure a school child for any out of pocket expenses in connection with an accident, whether it be Hospital, Nurse, X-Ray, Dentist or Doctor's Bills we will pay them up to \$100.00.

Here is the application—

CANADIAN NATIONAL

HE HAD TO REDUCE Easiest Way Proved the Best

A man who had been advised by his doctor to reduce, writes thus:— "I had put on weight to the extent of 200 lbs. This was excessive as I am only 5-ft. 6-in. in height. My doctor advised me to reduce, and I tried hot baths and massage. This, however, was too fatiguing—and I am a very busy man. I then saw an announcement about Kruschen Salts, bought a bottle, and commenced taking them right away. Last Saturday I weighed myself, and to my surprise and delight I had reduced my weight from 206 lbs. to 199 lbs. My health generally is better, I sleep well, and eat more heartily. I have spread the good news to my friends who are putting on weight."—W.E.R.

Kruschen contains those six mineral salts, proportionately balanced, found in the waters of those famous European Spas used by generations of fat people to reduce weight.

Kruschen helps blood, nerves, glands and body organs to function properly—you gain new strength and energy—feel years younger—look better, work better. Why postpone a sure, steady return to normal weight and vigorous health?—Start the Kruschen treatment today!

FREE TRIAL OFFER
If you have never tried Kruschen at your expense. We have distributed a great many special "OLAST" trial bottles. It is easy for you to prove our claims for yourself. Ask your druggist for the sure "OLAST" 75c. package.

The contents of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Upon the trial bottle, we make it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist will be delighted to return your 75c. immediately and without question. You have nothing to lose at our expense. What could be fairer? Manufactured by E. Giffels Hughes, Ltd., Montreal, Que. (Canada, 176). Importers: McMillan Bros. Ltd., Toronto.

CHAPTER VI.—Continued.

Her heart leaped at the thought, and her whole manner toward Alan changed. She drew near him, slipped an arm about him, and a softness came into her voice.

"Dear, you're sorry to be out. I'm sorry to see you hurt. You didn't want to leave here, Alan. I—I didn't want you to; but I wouldn't have insisted. I'd have given in to you, dear, before I'd seen you unhappy. The long run, we'll not regret; it'll be the best for us."

Alan watched the candle sheen in her hair, the auburn hair that always brought him poignant memories of her brother Curt. His thoughts, leaping ahead to his lone-handed venture, were scarcely with her at all, yet he was bewildered by her sudden change, her ardent affection. There had been times when affection from her would have cheered and heartened him; but now her lips, inviting him, asking for his own, meant less than the pack lying at his feet.

She asked him: "And now—you're going to take—we'll be down in Victoria, now? Won't Colonel Steele be glad when he hears? You'll write to him right away?"

"I suppose so. Yes, I'm going to take that job. Not much else to turn to."

She noticed how cold, how unmoved he was; and she went on, half-whispering:

"On our way outside, we can be married at Edmonton, and have that trip we planned to the Blackfoot Selkies. And we'll have—we can afford to have now—a cabin back in Vancouver Island, back in the mountains by ourselves, Alan."

He merely said, gesturing at the alcove: "I'm leaving Curt's keepsakes here. You'll watch after them, won't you?" And he added, "I'm leaving here tonight, Elizabeth."

"Leaving here? Tonight?" Her eyes went to the pack on the floor. Suddenly startled, she looked up at him again.

Feeling that he owed some explanation to the girl he was engaged to, he partly explained: "I'm pitching off on a trip, Elizabeth. By myself. I'm going after those men that shot up two of my friends. Haskell blocked a patrol I wanted to make. To go after them I'd like to be free. I don't know how long it'll take me. Maybe three weeks, maybe six. I'd like for you to wait here."

Something in his manner stopped Elizabeth from questioning him. She knew he intended to marry her and take her to Victoria; but something told her that in this present hour it was not well to question or oppose Alan Baker.

She acquiesced: "I'll wait, dear. I'll wait here for you. But, Alan, before you go..." She stood on tiptoe, reproaching him, begging, "Aren't you going to tell me goodbye?"

Alan bent and kissed her, as she invited. But he did it dispassionately, as a thing expected of him. He felt her breath on his cheek, her arm tightening around him, her body pressed against his. He was subtly but unmistakably aware of a certain willingness about her; she wanted him to linger; she would have stayed with him there in the cabin. . . .

It surprised, it shocked him, after all these months when she had been so cold and passionless.

When she had gone, he buckled his pack and caught up his hat. As he started to snuff the two candles in the alcove, he heard a thumping footstep on the threshold and turned to see Bill Hardcock. In a flash he guessed that Bill had been waiting outside, not wanting to come in while Elizabeth was there.

"Alan! If—there's blueazes!" Bill was all but incoherent as he advanced across the cabin. "Say it isn't so! I heard... wasn't meaning to listen... Joyce told me part of it, and I

just heard you tell 'Elizabeth. . . . He didn't bust you? He didn't dare! And blame you for splitting our patrol? You didn't buy out Haskell. That's what I did, Bill. He busted me, blamed me. What's worse, he wouldn't let us make the Inconnu trip. I couldn't stand that. I'm out. Leaving Endurance. Right now."

Bill's face turned gray. His jaw dropped, he stood in stupefied shock, with a look of misery on his blunt, bulldog features.

"You're—leaving—us," he gulped. "You're—pitching away—for good. You always stood up for us men, against Haskell. You and me. . . . Now you won't be here any more. Alan. . . ."

"Bill, shake yourself together and listen. I'm going after those bandits. There's several things you've got to do for me. One is, I want you to cut aside from patrols whenever you can and visit Joyce and see she's safe. Another thing, I'm giving you this cabin and what's in it, except for a little personal stuff I'll get some time or else send for. Then, there's one last thing. Got any free time coming in the next couple weeks?"

"I don't know. Yes, must have three or four days—maybe we've been hitting the ball all winter."

"Two days will be enough. I need a little help on my plan; and you, here at Endurance, you can give me a hand. It's not much, but it'll mean a lot to me. I'll tell you what I've got in mind, so you'll understand."

In a few terse sentences that left Bill gasping and swearing at so staggering a scheme, Alan sketched his plan.

"And you'll keep quiet about this, Bill? Don't tell Pat, Ed, Elizabeth, Drummond, anybody. If it ever gets out, it'd wreck the whole idea, and I'd probably land in a penitentiary."

"I'll keep quiet as a dead dog. I won't breathe a word. But Alan, why

in a—l. way we've hung together, why can't I be in on your trick?" Eagerly he pleaded. "Let me go along, Alan."

"It'd mean desertion for you. Haskell would give you the limit. And you've got to watch after Joyce. My work is a one-man job anyway. We'll keep in touch, Bill. You write to me. Lord knows—but—what you and I sometimes on ahead, might get together again."

Alan hurried down the slope to the trading store. Factor Drummond had not gone to bed. The news of the patrol, of his old friend Dave MacMillan being arrested and faced with such overwhelming evidence of guilt, had upset him.

"What the devil, Alan?—civilian clothes?"

Alan was weary of people's astonishment. He wanted no time with explanations.

"Drummond, where's old Dad Pence? I saw him here when we got back this evening."

Drummond pointed behind the counter. Alan walked around, up the narrow aisle, and there found old Pence asleep on a pile of wolf skins.

He had passed his three score and ten, old Dad Pence, at prospecting,

trapping, water dogging, whatnot. He had made fortunes and guilelessly had lost them to men sharper than he. He had come down to the twilight of life penniless, homeless, childless. But old Dad Pence could still handle a rifle with the best of the youngsters; and a reputation for magic which he had acquired among the witch-killing Indians, still clung to him and put fear into primitive hearts. Altogether he was the man for Alan's purpose, if only Joyce would not mother him too much and make his existence there-fore too desolate by contrast.

Shaking him wide enough awake to understand what was wanted of him, Alan explained. He was to go back to the Big Alouksa with Joyce and watch after her. He was to keep his touch with Bill Hardcock. Under no circumstances was he to wander off into the bush and leave Joyce alone.

Old Pence nodded. "I'll do it, b'y, just as you say. I'll try not to fergit and wanner off in th' bush. I'll look after Joyce, you don't worry."

Alan thrust a handful of bills into his pocket, and rose up and stepped back around the counter. "I want to buy your motor canoe, Drummond. How much?"

(To Be Continued).

News of Rosenthal.

Rosenthal Athletic Club held their whist and hulla drive on Friday last in the school house; 2 prizes were given for hulla and 2 for Court whist; the hulla score was 1st prize in women was the score of 1200; Lillie Kulak 1st was Mrs A. Fesher score of 1160 and in men's 1st Jac Kulak score of 1360 and Eric Thom was 2d the score 1350; and in first were 1st in women's Mrs Peter Kulak score of 208 and Mrs Peter Sware score of 200; and in men 1st W Carmichael, 2d P Litzenberger. The club wishes to thank the following for donations: T J Hardwick, William Kelly, L M Larson, Oppertshausers, A E Michael, James Ceristie, John Clark, Barth & Anderson.

Funeral of Mr O. Mickelson.

Mr Ole Mickelson, one of the oldtime settlers in the Inga district, passed away at his home on Saturday last, Feb. 18, in his 81st year. Deceased was born at Sparbau, Norway, on Aug. 24th, 1852. He was married on the 10th February, 1891, and came to Canada in 1894. He took up a homestead in the Inga sector, and on which he had resided up to the time of his death. He leaves to mourn his loss his wife; 2 sons Michael and Oscar; and 6 grandchildren; all living in Inga district. The funeral took place on Tuesday, services being held at Inga Lutheran church by Pastor Frey. Interment was made in the Lutheran cemetery. Mr John Armbruster had charge of the funeral arrangements.

Hansen's Corners.

Residents here have been complaining of the recent very cold spell, some saying the thermometer went down to 40 below.

The whist drive held at Lucknow schoolhouse brought in a nice, tidy sum of money. Mr Corinne is making a good recovery from his recent spell of sickness, which necessitated a two-months' stay in the hospital.

Notice has now been given that the Hansen's Corners general store will not be open for business until later in the Spring.

Mr and Mrs R C Howat were Sunday visitors with Mr and Mrs D McDonald.

His friends in div. 2 feel certain of the election of Mr H Summerfield as Councillor in Inga M.D.

A petition is in circulation in this district, to have the Dept. of Municipal Affairs abolished, and the departmental work handed over to the Dept. of Public Works. The petitioners claim this would effect a saving of \$200,000 a year.

Mr Sam Powell, an old resident in this district, who is at present on the Seattle police force, is expected to shortly retire from the force and return to this district to resume farming.

Mr Norris McDonald moved back, last week, from Mevassin.

Holborn Happenings.

The starting time of the big meeting at the Hall on Sat. March 4 has been changed to 2 p.m.

Miss Helen Meads was giving a farewell party on Monday evening by Holborn Juniors, on the eve of her leaving the district.

Holborn Juniors held a dance Feb. 10; a fair-sized crowd attended and everyone had a good time.

Mr Robert Barns and his orchestra played, and that evening while on his way to the Hall his horse fell and disabled its hip; this being due to the slippery roads. The animal, however, got home.

Another card party of the series was held on the 14th, by Juniors. It proved a good success.

The Junior sports committee held a working been on Feb. 16th. The boys went to work with a will and within a short time they had the necessary basket ball fixtures hanging from the ceiling. The girls sat back and bossed the job. Altho the rolling pins were absent, yet they worked their spells and the submissive workmen toiled on with the sweat upon their brows. The practice of the indoor sport will commence on Feb. 25th.

Juniors held a meeting on the 11th. There was a small attendance due to the weather and also to the dance the night before. Our "pippin" editor, due to a slack in news, was unable to have a publication of our Press, and it was certainly greatly missed by all.—H.J.R

The Sun's Calendar.

FEBRUARY—
25—Glee Club Dance, Moose Hall.
26—Election for Councillors for Inga M.D.
26—Hockey game at 3 p.m.
MARCH—
4—Addresses to be given at a meeting held at Holborn Hall.
4—Stony Plain Liberal Ass'n meets in Moose Hall.
17—Dance, Moose Hall.

Liberal Association Meeting.

Stony Plain Liberal Association has arranged for a meeting to be held in Moose Hall Saturday Mar. 4 at 2 p.m. They have arranged to have Mr W R Howson, the new Liberal leader, present, together with a number of Liberal members of the Legislature. In view of the present conditions, it is felt that a lot of people will be anxious to hear a statement concerning the present situation from the Opposition members. After the speakers new officers will be elected and plans for the future discussed. Everyone interested in Alberta's problems is cordially invited to be present and hear the speakers.

Before the P. M.

On Monday, before Magistrate Williams the case against Charles Copley was heard; the charge was that of theft and arose out of the taking of a portable sawmill. After hearing part of the evidence, it appeared that there was a misunderstanding between the parties as to the contract at the time the mill was purchased. As a result, the Magistrate stated that, as there appeared to be a color of right on the part of the accused, it was a matter for the civil courts. C H Grant and Geo J Bryan appeared for the parties interested.

With the Curlers.

Some intensive playing is being done this week at the local rink, where the mixed bonspiel is in progress. The prizes—
Grand Challenge—

- 1st—2 footstools, 2 glass salad bowls;
- 2d—4 sacks Robin Hood flour, donated by Mr Connolly.
- Merchandise, 2 competitions—
- 1st—4 China sandwich plates, sets;
- 2d—4 silver bread and cheese dishes.
- Consolation—
- 1st—4 Keystone curling brooms donated by A R Michael;
- 2d—4 oak fern stands

Sporting Notes

Junior hockeyites did not keep their engagement, last Sunday, to play up at Seba; but intend to go up there next Sunday.

Leduc puckchasers played a return game here on the 19th with the Seniors, but did not have the easy pickin's they experienced when our team visited them. Seniors had been reinforced and gave the visitors stout opposition, so much so that at the end of the 3d period the score was 2-all. In overtime play, each team made a goal and let it go at that—3-all.

The "All Signs" team, of Edmonton, play Seniors here next Sunday.

Seniors are expecting a call to play Edmonton Journal's team, in the City, on a near-hand date.

At the game here Tuesday night the reinforced Seniors met Eric Heighen's Onaway onions. Result—a tie, 5 all.

Stony Plain and District

Mrs John Eberhardt and children, who had been on a visit with relatives in this district, have returned to their home at Edson.

While on a trip to Edmonton on last week Mrs Muriel McInlay was taken suddenly ill, and removed to Royal Alex hospital, where she is at the present time. Her condition is said to be slightly improved.

Mr Ph Enders is still suffering from the injury to his back received in the last game at Onaway, and will probably be out of the hockey game for the balance of the season.

At 9 Monday morning an alarm sent the fire brigade over to Bill Barth's house, on Meridion road, where a over-heated stove had charred a wooden partition. The damage done was slight.

BUTTER AND EGGS WANTED at The Royal Cafe.

Spruce Grove News

Mr and Mrs L Javorsky were Sunday visitors with Mr and Mrs Jac Brox.

Members of the Y. P. S. of the United church held their bi-monthly meeting last evening in the church.

Mr Dave Bell motored a few hockey enthusiasts to the Arena Sat. Evg., to witness the contest between Eks and Calgary Tigers.

Mr Walter Brox spent a pleasant week end visiting friends in the City.

A lot of campaigning was in progress this week for the candidates who were running for the job of Councillors for Spruce Grove Municipality. The activity was particularly noticeable in the division where Messrs A Jaspersen and D Brox were competing.

There was a good crowd of bidders at attendance Tues. last at the sale held at the R Goebel farm. Horses and implements brought a fairly good price, considering the terms were cash. A team of horses brought \$177, and a cow sold at \$22.50.

A meeting was held this week in Winterburn Community Hall in the interests of Co-operative Commonwealth Federation, at which three members of the Legislature gave addresses: Messrs C L Gibbs, C A Ronning, and D MacLeod. Several subjects of present day importance were under review.

Card of Thanks.

Mrs Ole Mickelson and Family wish to thank their kind friends for the assistance given and the expressions of sympathy, on the occasion of their recent bereavement.

The Market Report
